Certain statements and information contained in this presentation that are not statements or information of historical fact constitute forward-looking statements, notwithstanding that such statements are not specifically identified. These forward-looking statements may include statements regarding our (or our portfolio companies') plans, objectives, goals, strategies, future events, future revenue or performance, financing needs, plans or intentions relating to acquisitions, investments or capital expenditures, business trends or other information that is not historical information. These statements may include terminology such as "may", "will", "expect", "could", "should", "intend", "estimate", "anticipate", "believe", "remain", "on track", "design", "target", "objective", "goal", "forecast", "projection", "outlook", "prospects", "plan", "intend", or similar terminology. Forward-looking statements are related to future, not past, events and are not guarantees of future performance. These statements are based on current expectations and projections about future events and, by their nature, address matters that are, to different degrees, uncertain and are subject to inherent risks and uncertainties. They relate to events and depend on circumstances that may or may not occur or exist in the future, and, as such, undue reliance should not be placed on them. Actual results may differ materially from those expressed in such statements as a result of a variety of factors, including among others:

- changes in general economic, financial and market conditions and other changes in business conditions;
- changes in commodity prices, the level of demand and financial performance of the major industries our portfolio companies serve; and
- changes in regulations and institutional framework (in each case, in Italy or abroad); and

- many other factors, most of which are outside of the control of EXOR.

These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements included in EXOR’s Annual Report 2017, including those set forth under the heading “Risk Factors”. These risks and uncertainties, as well as other risks of which we are not aware or which we currently do not believe to be material, may cause our actual future results to be materially different than those expressed in our forward-looking statements.

Investors and shareholders are cautioned not to place undue reliance on the forward-looking statements. Forward-looking statements speak only as of the date they are made. All forward looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the foregoing cautionary statements. EXOR undertakes no obligation to update or revise its outlook or forward-looking statements, whether as a result of new developments or otherwise. EXOR expressly disclaims and does not assume any liability in connection with any inaccuracies in any of these forward-looking statements or in connection with any use by any party of such forward-looking statements.

Names, organizations and company names referred to may be the trademarks of their respective owners.

This presentation does not represent investment advice neither a solicitation, nor a recommendation nor an invitation, nor an offer for the purchase or sale of financial products and/or of any kind of financial services as contemplated by the laws in any country or state.

INVESTOR AND ANALYST CONFERENCE CALL

GROSS DEBT
In 2017 we continued to focus on deleveraging, reducing total debt by ~25% since the closing of PRE in March 2016. Managing our liabilities in a disciplined way combined with the performance of our assets allowed us to reduce our Loan-To-Value (LTV) ratio to ~14% by the end of 2017.

1) LTV ratio calculated according to S&P’s rating methodology: Gross debt adjusted for cash & equivalents and commitments divided by Gross Asset Value adjusted for cash & equivalents and commitments.
GROSS DEBT BREAKDOWN

DEBT COMPOSITION

Public bonds 58%
Private placements 41%
Bank debt 1%

Gross debt = €3,269mn

DEBT MATURITY PROFILE

2019 2020 2022 2024 2025 2026 2028 2031 2038
€150 €200 €750 €650 €550 €500 €170 ¥10,0003 €200

All figures are expressed in millions and in the original currency of issuance

• New 10yr and 20yr bond issuances completed in 1Q18: €500mn 1.75% and €200mn 3.125%
• Most of debt currently made up of bonds, with avg. maturity >7yrs and avg. cost ~2.8%
• No material refinancing needs, with 2019 and 2020 maturities covered by Net Free Cash Flow

1) Gross debt as of December 31, 2017. Debt composition post-issuance of €500mn 10-yr public bond in January 18, 2018 (for the repayment of term loan facilities) and €200mn 20-yr private placement in February 15, 2018 (to refinance short-term debt), as announced, with no impact on the Gross debt amount
2) Excluding short-term bank debt
3) EXOR put in place a cross-currency swap on the bond issue
4) Net Free Cash Flow calculated as: Free Cash Flow (Dividend inflows – Net financial expenses – Recurring net general expenses) minus Dividend outflow
DEBT MANAGEMENT

**KEY METRICS**

- LOAN-TO-VALUE (LTV) RATIO

**APPROACH**

- Keep LTV below 20%
- Demonstrated ability to restore the ratio when it went above 20% after acquiring PartnerRe through an all-cash deal

- Monitor our debt levels relative to the value of our assets, but also in absolute terms

MSCI World Index ($)

1) Family business defined as a company where (i) a family has a relevant voting power (20%+) or (ii) the CEO or Chairman holds relevant economic interest (5%+). The subset of Family Businesses was obtained from an analysis of the shareholding structure of the constituents of the broader MSCI Index (1600+ companies as of Dec 2017). It includes 300+ companies and it remains broadly diversified in terms of geography and industry, thus limiting sector or geography bias. Equally weighted index.

2) A global group of diversified holdings equally weighted index including: Bolloré, CK Hutchinson, GBL, HAL, Investor AB, Industrivarden, Jardine Matheson, JG Summit, Koç Holding, Loews, Mahindra, Power Corp, SM Investments, Swire

Source: CIQ as of May 24, 2018. Data in USD
FB HAVE RECOVERED FASTER AFTER 2008 MARKET DOWNTURN…

TSR Performance through 2008 market downturn (in $)

Source: CIQ
...SUPPORTED BY STRONG GROWTH IN THEIR UNDERLYING EARNINGS

Earnings capability and a more conservative capital structure (~30% lower Net Debt/EBITDA\(^1\)) have allowed FB to deliver superior returns during the crisis.

Note: The representation of the TSR components is illustrative given their non-linear relationship;  
1) Based on historical comparison between FB and other businesses within the current constituents of the MSCI World Index  
Source: CIQ, Bloomberg and EXOR estimates; data in USD referring to the period from June 2008 to June 2011
The evidence suggests FB deliver strong results over the long term and are well positioned to withstand market downturns.

We are studying ways of creating a liquid financial instrument of high quality FB where EXOR and PartnerRe could invest in the event of a market correction.

EXOR will continue to learn from and apply to its activity and businesses the strong culture and the competitive advantage that characterize FB.
CLOSING REMARKS
2018 OBJECTIVES

**QUANTITATIVE**

- NAV per share in USD to outperform the MSCI World index in USD
- Free Cash Flow¹ > Dividend outflow
- Loan-To-Value ratio below 20%

**QUALITATIVE**

- Reassess our corporate culture as we reach EXOR’s first decade
- Strengthen the governance framework for EXOR companies
- Continue to study family businesses

---

1) Free Cash Flow calculated as (Dividend inflows – Net financial expenses – Recurring net general expenses)
